POOR SOLDIERS HAVE TO TURN OUT IN THE DEAD OF NIGHT

The Same as if Actual War Was Going On—An American Lady, Now a Countess, Entertains Grandly—Explosion on Board of a Steamer.

LONDON, May 11.—A Strasburg correspondent states that a curious sort of exercise is going on among the Geman and French garrisons near the frontier. In order to have them prepared for the sudden attack of an enemy, men are aroused in the middle of the night and made to turn out with guns ready for battle. Last week the garrison at Metz was aroused in this way three times, and in Strasburg there is at least one alarm a week. The French this month have begun the same practice, so that on each side of the frontier the call to arms is heard in the dead of night as if an actual war is going on.

DESERTERS ARRESTED.

Three Alsatians, arrested near Pelton Court, on the frontier, while attempting to escape into France, in order to avoid military service, have been brought prisoners into Strasburg, and will be tried by the military authorities. This kind of desertion has of late been so frequent that the punishment will probably be severe.

NO MORE DEAD-HEADS.

The Kaiser has given orders through the Minister of Public Works that no person shall be permitted to ride free on the government railway unless actually engaged in the service of the government, and that officials allowing any violation of this rule shall be dismissed. This will put an end to free travelling for pleasure, not only by officers of the army and others, but also by members of some of the ruling houses of Germany, who have been in the habit, on account of their more or less honorary military rank, of travelling free of charge.

MILAN DISGUSTED.

Ex-King Milan met with a great disappointment at Vienna when he presented to the bank which does business for the Servian Government in that city a check for six hundred thousand francs. It appears that when Milan was king he contracted debts to the bank for about three hundred thousand francs. In honoring the check this amount was deducted, greatly to Milan's disgust, who claimed the state ought to pay the bill. He took three hundred thousand francs under protest.

RECANTED AND SUICIDED.

From Ostrohog, Posen, comes news of an extraordinary affair. A man named Koftan changed his religion, he having been a Lutheran, in order to marry a Jewess, with whom he had become infatuated. The young woman married him, and for a time they lived happily. Koftan was perpetually irritated by the taunts of his former coreligionists. The thought of his apostasy preyed on his mind. A few days ago he was found dead in his house, with a written recantation of Judaism lying beside him. He had cut his throat.

AN ITALIAN DEMAND.

The appeal of the Italian government to other European governments to unite in demanding from the United States protection for resident aliens is laughed at in Berlin, says a dispatch, in view of the great increase of Italian immigration to America. It is believed that Germany will refuse to take any part in any such demand.

GUNTER UNDER A CLOUD.

Duke Gunter, the Kaiser's brother-in-law, is under a cloud for absence without leave from his regiment in Berlin. The Kaiser, to whose knowledge the matter came, has intimated to his relative that he must give strict attention to his military duties. The young man, who is unmarried, is leading a life of unusual gaiety.

AN AMERICAN COUNTESS.

A Hamburg dispatch says that the Countess Waldersee has been giving some brilliant entertainments at Altoona, where her husband is in military command, and that distinguished guests have come from as far as Berlin. The countess retains much of the beauty which she had when as Miss Lee, of New York, she won the heart of the Prince of Noer.

THE SOCIALIST CHAMPION.

The workingmen of Gestemunde propose to present a testimonial to Scmalfield the socialist shoemaker, in memory of his championship of the socialist cause against Prince Bismarck in the recent election. Scmalfield has received letters from all parts of Germany and Europe, congratulating him on the run which he made against the ex-chancellor.

TO PREVENT DISORDERS.

The Belgian Minister of war has ordered an additional force of troops to Liege and Charleroi, where new disorders are feared. The miners are believed to meditate revenge on the military and police, for the injury already done them. Extra inspectors have been stationed at the frontier to prevent the introduction of dynamite from France. It is said that several French anarchists have been seen among the people of Charleroi.

EXPLOSION ON A STEAMER.

A terrific explosion occurred in the forehold of the British steamship Tancarville, Capt. Carter, undergoing repairs in the drydock at Newport. Several workmen employed on the steamer were killed and a number injured. The vessel was badly damaged. The Tancarville is a tank steamer engaged in carrying oil in bulk from American ports. Her last voyage was from Philadelphia for Havre, from which latter port she proceeded to Newport where she was to leave for Baltimore. It seems probable the explosion was caused by gasses which to greater or lesser extent prevail in the holds of all oil carrying vessels.

Looking Out For No One.

LONDON, May 8. — Private Chile cables state that President Balmaceda is arranging to flee from Santiago and come to London via Buenos Ayres. The proposals of mediation of France, Brazil and the United States are rejected by the Balmacedists, who consider the success of such mediation impossible. Balmaceda has invested large sums of his personal account in a London bank.

Newfoundland Still Excited.

ST. JOHNS, N. F., May 8.—The assembly met last night and discussed Lord Knutsford's coercion bill at length, and amid much excitement finally adopted a resolution denunciatory of the action proposed to be taken by the British parliament. The populace are considerably exercised over the affair, and are entirely in sympathy with the action of the assembly.

To Crescent City.

OTTAWA, May 8—Parliament has been notified of the coming measure to authorize the Victoria & North American Railway Company to operate a ferry between Beecher Bay, near Victoria, and some point on the Straits of Fuca, in the United States. This ferry is said to be a part of a huge scheme to connect Vancouver Island with the American system of railways.

Golden Gate News.

SAN FRANCISCO, May 11.—A dispatch has been received from San Pedro, saying that the Charloston sailed south from there at 5 o'clock this morning.

Customs officers seized 45 boxes of opium, valued at about four hundred dollars on the steamer Belgic this morning.

An Australian Dead.

SYDNEY, N. S. W., May 9—Sir John Robertson, formerly premier of Victoria, is dead.

OTTAWA NEWS.

More Petitions—An Act Respecting the Certificates of Masters' Mates.

[Special to the TIMES.]

OTTAWA, May 11.—Another batch of prohibition petitions was presented today when the house met.

Hon. Mr. Tupper introduced his bill to amend the act respecting certificates for masters' mates.

OTTAWA, May 11.—Mr. Tarte in the House to-day moved his famous resolutions on the McGreevy-Langevin scandal case.

FELL FROM THE WHARF.

F. Canfield Meets a Sudden Death Early Sunday Morning—A Sad Sight.

Early yesterday morning the body of F. Canfield was found jammed in between two piles under Turner & Beeton's wharf, at the foot of Johnson street. The police were at once notified of the fact, and officer Robert Walker had the body conveyed to Lockhart's undertaking rooms, on Broad street.

The body could not have been more than a very few hours in the water, as it was taken out about 8 o'clock, and a silver watch found in the pocket had stopped at 3 o'clock. A gold watch found in another pocket pointed to about half-past 9, so the presumption is that deceased fell into the water at the former hour.

From the circumstances of the case it would seem that the poor fellow was under the influence of liquor, and in that state staggered down to the wharf, where he fell over into the water, striking his face against a pile, the force of which stunned him. His legs got jammed in between two piles close together, and there he was held till the tide went down and left the body hanging by the feet.

Deceased was a man of about 40 years of age, and was employed as a gardener by Capt. John Irving. He had a brother living at McMurry, Skagit County, Wash., to whom Provincial Sergeant Langley has telegraphed the sad tidings.

"FOUND DROWNED."

Coroner Morrison held an inquest on the body of poor Canfield, and without much delay the jury found a verdict of "Found drowned."

RESULT OF AN ECCENTRIC MONEY LENDER'S WILL.

Cowardly Murder of a United States Marshal—Iron and Steel Workers Will Demand $6 a Ton for Puddling—Refused Assistance and was Drowned.

MEMPHIS, Tenn., May 11. — Anna Clara Kenoye, is the 10-year-old daughter of a widow. Previous to April, 1890, the widow and little girl lived over a butcher shop and were in abject poverty, the mother making a scanty living for them by sewing. Last April the little girl inherited $25,000 in a romantic manner. A year previously the mother and daughter were traveling on a Mississippi river steamer, and met an eccentric old bachelor named Kosecker, a money lender, living at Greenville, Miss. He took a fancy to the little girl and wanted to adopt her. The mother refused. When the old man died he left $25,000 to the child; in case of her death the fortune to revert to his two nephews. Since then the mother and daughter have lived in comparative affluence off the income. Last Thursday the little girl, especially anxious to be dressed up nicely before going to school, did not return, nor could she be found until after 1 o'clock Saturday night, when the river police found her on a flatboat that was just being cut loose for a trip down the river. The girl says that two men decoyed her on the boat Thursday, and she has been a prisoner since. The people in the flatboat said she had been there since Thursday, and she had come aboard the boat by herself. The mother thinks the reversionary heirs had a hand in the matter. The police say there is no evidence upon which to make any arrests. The girl was terribly dirty when found, but had evidently had plenty to eat and was not suffering in any way.

An Excited Priest.

BURLINGTON, N. J., May 11.—There was a scene in St. Paul's Roman Catholic church in this city yesterday morning. It was the 53th anniversary of the ordination of Rev. Father Tracey, the pastor of the church. The priest has not been on good terms with some of his flock for many months and in the course of his anniversary address he became highly excited. "I will grind to dust" he shouted "the rotten hearted devils of the congregation and hold their wretched characters to the light of day. While I am not as great a man as Moses I have just as much authority over my people." The outburst was a surprise to many in the audience and as the priest continued his tirade many men and women arose in indignation and left the church. The sermon is the talk of the town.

U. S. Marshal Murdered.

RUSSELLVILLE, Ala., May 11.—A dastardly murder was committed a few miles south of this place about 9 o'clock this morning. The victim was Locke Ezell, a United States marshal. The murderers are supposed to be "wild catters," a gang of lawless people who carry on their work on the outskirts of this town. The murder is believed to have been committed out of revenge for arrests made by the marshal in the discharge of his duty. The regular trap seems to have been laid for the victim and he walked right into it. He was so suddenly attacked and his assailants were so numerous that he did not have even a chance for his life. Some notorious characters are under suspicion and every effort will be made to capture them.

Iron and Steel Workers' Demand.

PITTSBURG, May 11.—Returns up to Saturday night indicate that all the Pittsburg lodges of the Amalgamated Association of Iron and Steel Workers have declared for an advance from $5.50 to $6 per ton for puddling next year. The 1891 scale takes effect on July 1, and during June the amalgamated convention will pass upon the proposition to demand an increase. It is thought the scheme will carry, although it failed a year ago. That the manufacturers will concede it, with the market in its present unsatisfactory shape is not certain. It is said that toe determination to secure an increase is based upon the boom expected to be caused by the World's Fair work.

Result of a Dispute Over Land.

NEWPORT, Tenn., May 11.—Two or three years ago two neighbors, Bury Holt and Wm. Holdway, had trouble over a tract of land. The bitterness then engendered never died. Saturday a law suit was decided in favor of Holdway and yesterday morning, while William Holdway and P. Holt were moving a fence according to the decision, Rufus Holt, son of Bury Holt, shot them both down, Holdway dying instantly and P. Holt four hours later. The amount of land in dispute is one acre. The murderer fled to the mountains and has not been apprehended.

Unfortunate Lawyer.

SAN ANTONIO, May 8.—This afternoon J. M. Wesson, a young lawyer from Navasota, took his wife and babe to an ice cream saloon and took a seat on a gallery which projected over the river. Soon after a splash was heard, and all three were seen in the water. The woman was rescued, but the man refused assistance and was drowned, also the baby. Wesson had been in ill-health for some time, and it is thought he threw the folks in while demented.

Murder and Suicide.

LOGANSPORT, Ind., May 11.—On Friday night Martin Griner and Annie Kiester, his companion, quarreled and Griner attempted suicide by taking morphine, but the drug failed. Saturday he resumed the quarrel, and drawing a pistol, shot Annie killing her instantly. He then put a bullet in his own head and when found was conscious but died soon after being removed to jail.

A Frightful Accident.

LOUISVILLE, Ky., May 11.—A passenger train on the Newport News & Mississippi Railway, struck a wagon loaded with an excursion party on the track near Mayfield on Saturday. Robert Stewart, 12 years old, was killed; Lucy Stewart had both legs cut off and is dying, Mrs. Perry Stewart had both arms broken, Mrs. Julia Wyatt received dangerous internal injuries. The rest escaped.

NANAIMO NEWS.

The District Roads—Lively Times at the Salvation Army.

NANAIMO, May 11.—Now that so many acres of land have been cleared and cultivated at the back of the city, it is about time the Government took some steps towards improving the new roads throughout this section of the country. At present the ranchers have to be content with the rough and narrow roads that were constructed by the new V.C.Co. to enable them to take out the necessary provisions, etc. Providing the Government would undertake to improve these roads it would be an inducement to a large number to go on clearing the wild land and placing it under cultivation. Already many orchards are flourishing in this direction and every preparation being made to commence farming operations. The soil is rich, and there is no reason why the land for miles around Nanaimo should not be self-supporting, the same as that already existing at Englishman's river and Cedar district. The new V.C.Co. have been put to considerable expense in constructing these roads, and for which they cannot expect to get a return for many years, as the land is let on lease for ten years at low prices, with the option of purchase.

THE SHIPPING.

Nanaimo shipping so far remains good and promises fair to continue so for some time to come. The citizens here are under the impression the English vessels will flock out to this coast in the fall in the hopes of obtaining a cargo of wheat home, and it believed these vessels will bring a cargo of coal out with them, and thus swamp, for a time, the market at San Francisco. It is likely that work in the mines here will be slow for a couple of months, but after that it is possible it may remain good for another lengthy spell.

A SMASH UP.

Yesterday evening a number of persons who were promenading were alarmed by seeing a horse and buggy belonging to the I.X.L. Livery Stables madly tearing through the streets. Children were seen running from the roads and shreaks from frightened women gave the affair a bad impression. The driver was thrown out and the horse brought up in a ditch at the depot where the buggy was discovered to have been smashed to pieces.

A LIVELY TIME AT THE S. A.

A lively fight was witnessed at the Salvation Army barracks last evening between two constables and a civilian. One of the constables attempted to arrest the man for an offence, when he turned upon the officer and knocked him to the ground. Another constable witnessed the occurrence and he attempted to arrest the man but was served the same as his colleague. Mayor Hilbert arrived on the scene and with his assistance the prisoner was taken to goal where he will have to answer several charges.

WILL HAVE THEIR DESIRE.

Ever since the opera house has been opened in this city, the inhabitants have shown a strong desire to patronize any company who come well recommended, but unless they are recommended a poor house will greet them. Mr. W. K. Leighton, the energetic manager, is a man in the right place; he is sharp, shrewd, and knows what the public of Nanaimo are likely to appreciate. It has always been his task to ascertain the taste of the public, and in order to do this he has often been compelled to guarantee a company and seldom has made anything out of it. For some time past he has been besieged by many lovers of the opera to endeavor to get an opera here and the result is that the Abbie Carrington Opera Company have been guaranteed to come here this week and it remains to be seen how much it will be patronized.

LITTLE HAPPENINGS.

The weather was delightful yesterday and hundreds of the citizens took advantage of it.

Dyptheria is still raging at Wellington and the solitary doctor in that district has his hands full.

The steamer Cutch brought over a cargo of railroad iron yesterday and a large staff of men was employed all day and night discharging it.

LEGAL INTELLIGENCE.

SUPREME COURT—CHAMBERS.

(Before Mr. Justice Drake.)

Jno. Merrifield vs. Peter Hennesy—Plaintiff applied for leave to sign final judgment and the court granted the application. C. D. Mason for plaintiff; J. P. Walls for defendant.

McDougall vs. Robson—Plaintiff Mc Dougall, applied that the defence be struck out for having failed to comply with the order of Mr. Justice Walkem in this court on the 17th March last, requiring defendant to answer certain interrogations of plaintiff. The court ordered that the required answers be filed in court by 12 noon on Wednesday otherwise the defence would be struck out. Defendant to pay costs of application. E. V. Bodwell for plaintiff; A. L. Belyea for defendant.

Turner vs. Power et ell—Plaintiff applied to have the case tried before a judge and special jury on 20th inst. The court fixed the 17th as the date. R. E. Jackson for plaintiff; G. Jay, jr. for defendant.

Callie's Christmas.

Callie's Christmas having proved such a decided success, Mrs. Bridges and Mrs. F. Sehl have been asked to repeat it in aid of the Jubilee and St. Joseph's hospitals. It is to be hoped they will have a crowded house again at the Philharmonic Hall on Tuesday evening next, the 12th inst., when the admission will be 25c.

THE EMPRESS' TIME.

TO THE EDITOR,—In your reference to the trip of the Empress of India from Vancouver to this port, you make out that it took her four hours and thirty-five minutes to do it in. Such is not the case, as I think the following will show. At six minutes past six a. m. on Saturday morning, her lines were cast off; at 18 minutes past she cleared the Narrows; her anchor was dropped at 10:30, this making the run from wharf to anchorage in 4 h. 24 m. In the opinion of the undersigned it is hardly fair to the Empress to gauge her speed from the time she commences to back out from her wharf until her anchor is let go. I think her time should be counted from the moment she clears the Narrows until her engines are slowed down before coming to anchor. The latter would make her steaming time 4 h. 4 m. In connection with this trip I may state that while passing out through the Narrows, for some reason the starboard engine was stopped for ten minutes, causing considerable delay, and further considering that there was only three boilers used, instead of four, it can easily be concluded that if the Empress was put to her best she would have made the run in much less time. As it is I think she has made most excellent time, having come the longest way round, which makes the distance fully 90 miles.

Do Good to Those Around Us.

It can safely be asserted without fear of contradiction that Canadians are a reading people. The large number of newspapers, magazines, weekly and monthly journals now published in Canada fully prove this statement.

The proprietors of Paine's Celery Compound have taken advantage of the large circulation of many of these newspapers and magazines, to bring to the notice of our people the great benefits to be derived from the use of this scientific remedy in all cases of nervousness, exhaustion, insomnia, melancholia, dyspepsia, indigestion and rheumatism. Notwithstanding the fact that our Canadian people are great newspaper readers it is well known that there are people, who, owing to various circumstances are not able to see a paper and unfortunately some are unable to read. We believe it to be a duty incumbent upon every daily reader, to inform their less favored brothers and sisters around them who have not yet heard of the great efficacy of Paine's Celery Compound, that it is the medicine that they require if they are afflicted with any of the ordinary ills of life. Tell them of its great reputation and its many wonderful victories over disease and suffering. Ask them kindly to try it; by so doing you will have the great pleasure and satisfaction of knowing that you have given golden advice, and conferred some good. No remedy known to mankind can be so truly recommended.

Fruit and Hop Raising.

The lands in the neighborhood of Mission City are especially adapted for fruit and hop raising. Such industries are now being carried on with large profits. This section will in the near future be in the front rank, and a successful competitor of the celebrated hop raising and fruit growing districts of Washington, Oregon and California.

"It leads them all," is the general reply of druggists when asked about the merit or sales of Hood's Sarsaparilla.

A MELANCHOLY SUICIDE.

Deliberate Preparations Made for Self-Destruction.

HELENA, May 8.—John Flannagan was getting old and long has been lonesome. In his little miner's cabin in Strawberry Gulch, near Clancey, in Jefferson county, his body was found, a frightful hole torn through the breast.

This note was found near by: "I don't want to put anybody to any trouble. Bury me in the coffin I have made and the grave I have dug."

A few rods from the cabin was a newly-made grave and by it a rude coffin. Quietly and in order the old miner had gone about his final arrangements. Seating himself in the single chair in his cabin he put his trusty rifle, the sole companion of his life, to his breast and touched the trigger with a stove poker.

He had been mining in California, Idaho, Nevada and Montana for 20 years. His circle of acquaintances was always small. A brother lives somewhere in Michigan.

Mothers!

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

THE CHILIAN TROUBLE.

Will Keep a Sharp Lookout for Chilian Vessels.

WASHINGTON, May 11.—Sailing instructions to the revenue cutters "Rush" and "Bear" were mailed this afternoon from the treasury department to San Francisco. Special instructions to agents J. S. Brown and Williams were mailed by Mr. Williams from his home in Ohio on Wednesday. Mr. Williams, who sails by the Rush, has already left for San Francisco, and will arrive there in time to leave on the Rush on Thursday, 14th inst., unless there is some unexpected delay. Mailed sailing instructions also arrive Thursday morning, supplemented instructions which cannot now be determined on, but which may assume shape after the receipt of certain despatches from the British Government, which are waited on will be telegraphed from Washington Thursday in case they arrive.

Inquiry at the navy department today developed nothing new in the Itata case. The detention of the Charleston at San Francisco gives additional weight to the supposition that telegraphic instructions have been sent to Admirals McCann and Brown to intercept the Itata if she comes their way. The Itata, however, by this time has reached foreign waters. Grave doubts are expressed as to the right of the United States to seize her. The theory is advanced that the Charleston was detained at San Francisco with instructions to keep a sharp lookout for other Chilian vessels, as it has been reported that other craft have been seen cruising in the vicinity in a rather suspicious manner.

"I am so Tired"

Is a common exclamation at this season. There is a certain bracing effect in cold air which is lost when the weather grows warmer; and when nature is renewing her youth, her admirers feel dull, sluggish and tired. This condition is owing mainly to the impure condition of the blood, and its failure to supply healthy tissue to the various organs of the body. It is remarkable how susceptible the system is to the help to be derived from a good medicine at this season. Possessing just those purifying, building up qualities which the body craves, Hood's Sarsaparilla soon overcomes that tired feeling, restores the appetite, purifies the blood, and, in short, imparts vigorous health. Its thousands of friends as with one voice declare "It makes the weak strong."

A Far Away Star.

Most people are probably not aware that there is one at least of the well-known stars compared to which the sun is a mere pygmy. Sirius, the dog-star, which is also a sun, is believed to have nearly five thousand times the volume of our sun. Its immense distance, probably a hundred million millions of miles, makes such measurement as is applied to the planets impossible. Hence the above estimate is based on a comparison of the light of Sirius with that received from the sun. It is the most brilliant star in the heavens, being far brighter than the first magnitude, and its light has a greenish tinge. During the winter months the place to look for Sirius is in the southern heavens.

Telegraphic Brief.

The George Union Mines and Iron Works around Halle have failed owing to losses occasioned by reason of the strikes.

Capt. Verney, the disgraced member of Parliament, has been relieved from his official position and membership in the Church of England Temperance Society.

Mr. Mills, Conservative, (?) intends to give notice of resolutions declaring that the New England States be invited to join the Maritime Provinces and become part of the Dominion.

Gen. Butler's property has been attached for $12,000 by the Prescot National Bank of Lowell, Mass. The attachment is for money due on a note discounted by the bank four years ago.

Michael Davitt and wife will sail from Liverpool for Quebec on May 14 on their journey to California. Mr. Davitt will stop at Winnipeg to inspect the crofter colony in that vicinity. He goes thence to Idaho and later to San Francisco.

Life is Misery

To thousands of people who have the taint of scrofula in their blood. The agonies caused by the dreadful running sores and other manifestations of this disease are beyond description. There is no other remedy equal to Hood's Sarsaparilla for scrofula, salt rheum and every form of blood disease. It is reasonably sure to benefit all who give it a fair trial. Be sure to get Hood's.

Nature requires aid in correcting irregularities at this season, and for both men and women no other remedy equals Dr. Williams' Pink Pills as a spring blood tonic. They supply all the constituents necessary to enrich the blood and build up the system. Sold by all dealers, or sent post paid on receipt of price—50c. per box, or five boxes for $2—by addressing Dr. Williams Med. Col., Brockvill Ont.

The Queen City Building Society helps you to save money. It will aid you in building a house. You may by its means become your own landlord. Prospectus & Bylaws at 46 Fort street

THE CRY OF MILLIONS

OH, MY BACK!

STOP IT NOW.

SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was bent over. When I sat down it was almost impossible for me to get up alone, or to put on my clothes, when a friend, Providence sent Dr. Henley, with the DRAGON KIDNEY TEA, to my hotel. I immediately commenced using the tea. It had an almost miraculous effect, and to the astonishment of all the guests at the hotel, in a few days, I am happy to state, that I was a new man. I will recommend the tea to all afflicted as I have been.

THE "TELEGRAM'S" MANIFEST DUTY.

Barring discrimination against England, a little matter by the way the Tories do not care a rap about, the chief objection to reciprocity, according to the Tory gospel, is, that it would lead to annexation. In plain English, the Tories hold that the logical sequence of business affiliation is political affiliation. Notwithstanding, however, that this objection is being iterated until the Tory throat has become cracked; notwithstanding that annexation is a condition that the most loyal subject of Her Majesty is bound to embrace the moment he goes to trading with the Yankees, the Tory mind is unable to grasp the application of the slight paraphrase of POPE's lines on "vice" in relation to the subject, and flies off into a long argument in which, to paraphrase DISRAELI, it is "intoxicated by the exuberance of its own" sophistry. The Telegram, for this is the Tory mind we have reference to, in failing to apprehend the application of POPE's lines as we do, is either stupid or disingenuous, or, granting that it sees the point, it is illogical. If political affiliation is bound to succeed trade affiliation, how is it that "there can be nothing in Conservative principles forbidding a nation to engage in foreign trade to the utmost that its opportunities permit?" If there is nothing in Conservative principles forbidding trade with foreign nations how can the Tories possibly object to reciprocity? We hear the same old answer; it will lead to annexation. Now here is a manifest contradiction. If there is nothing in Conservative principles to prevent the extension of trade these principles must comprehend reciprocity, otherwise the Tory mind is not prepared to follow its arguments to their legitimate conclusion. The simple fact of the matter is, Tory prejudices and Tory trade principles are irreconcilable when it comes to the question of trade with the United States. As to Europe, Asia, and Africa, the Tories are ready to engage in reciprocal trade relations, but when it comes to reciprocity with the States they will have none of it, such is the fervor of their prejudice toward that country. Now, all we ask of the Canadian Tories is, that they live up to their prejudices, or their principles as they fondly call them. Let them leave the United States severely alone. If, as they claim, trade relations with the States can only be had at the expense of political surrender, let the tariff wall be raised higher, and whenever the Vancouver Sugar Refinery sells the Yankees a barrel of sugar, let the Telegram resort to sack-cloth and ashes in protest against the nails that are being driven in the coffin of British prestige. Shall the Vancouver Sugar Refinery jeopardize its patriotism for a handful of Yankee lucre? Will the Telegram stand by and applaud the extension of trade at such an expense? Would British prestige be in greater danger were reciprocity in operation? We profoundly desire the prosperity of the Vancouver Sugar Refinery, but we do insist that, if as the Tories urge business affiliation leads to political affiliation, it is the solemn duty of the Telegram to protest against any form of business transaction with the United States, the interests of the Vancouver Sugar Refinery to the contrary notwithstanding.

WHY FARMING IS UNPOPULAR.

In the New England States farm workers are so scarce that in many instances the area under cultivation has had to be reduced. It does not appear, however, that labor is really scarce. The trouble is that there is a wholesale exodus from the country to the cities and towns. The St. Paul Pioneer Press, discussing this subject, does not regard it strange that the trend of workers should be toward the centres of civilization. "Change and opportunity to develop," it observes, "are conditions of progress;" but it does regard it strange that "there is no compensating movement." Evidently the writer never worked on a farm. If he had he could understand why "there is no compensating movement." Farm life is not merely slow, but, as Mr. MANTILINI would express it, is a "demnition grind." The bucolic worker begins early and quits late. His duties are multifarious, and without end. Sunday scarcely brings him rest; there is the stock to be fed and the cows to be milked. Day in and day out, from one year's end to the other, it is treadmill work from daylight till dark. Small wonder that farmer's sons as soon as they are big enough shake the dust of the ranch off their feet; small wonder that wage earners generally prefer the city, where they work an allotted number of hours, and where when their work is done it is done, where there are no chores to do, and where they have Sunday all to themselves. It is easy to account for the unpopularity of farm work. Farm life, like life in general, is what you make it. Farming can be made the most agreeable of vocations, but the average farmer will not have it so. His gospel is long hours. Having been brought up to it, he thinks he must continue it. Having suffered in his youth, he thinks he must suffer to the end of the chapter, and what is more, he proposes that everybody else connected with the institution shall also. It was ground, and perhaps mauled, into him in his youth that long hours were the *sine qua non* of successful farming. It has become a second nature with him that only sixteen hours a day for himself and his hired man, and perhaps the hired girl, will save him from bankruptcy. We have seen farmers worth anywhere from $10,000 to $50,000 toil like slaves, and exacting from their children, not to mention hired men, the fullest measure of their capacity of accomplishment. Aye, worse than that. We have seen farmers so devoted to the gospel of work that they begrudged nightfall, and without taking into consideration that youth requires fully two hours more sleep than adults drag his half-grown boys from bed at an hour when nature intended them to be asleep. There are thousands of such farmers as these throughout this continent; there are a million or so who are scarcely better, and all farmers work more hours than they ought. Ordinary human nature will not stand such a life. The slow poison of the office and the factory is preferable to the miniature hades of the average farm. There is no more occasion for long hours on a farm than at other businesses. The farm hand who sees ten hours work before him springs to his work with a will. He is not only willing, but he is able; he is fresh and work is a pleasure. During harvest long hours are necessary, but not the long hours which are the invariable practice. Eleven hours is long enough for a harvest hand to work. We have met, of course, long hour farmers who were prosperous, in fact it is the rule where there is intelligent application, but the most prosperous farmers that ever came under our observation were short hour men, and men who would engage no help that they could not turn their backs on. On the whole it is no wonder that the young men are flocking to the cities. No energetic, self-respecting young man will endure the slaving of the farm if he has the least idea of where he can go and make a living at something else. It is unquestionably true that between early rising and late quitting lie mainly the causes of the unpopularity of farm work. Life is not worth having if you must rise before sun rise, and no vocation can be made popular which involves choring after dark.

EDITORIAL NOTES.

So it seems that England has been secretly backing the Chilian revolutionists, and that guano is at the bottom of it. Verily, in respect of methods of money making, there are more things on earth than are dreamed of in our philosophy. Some sort of an arrangement ought to be affected whereby capitalists should be able to possess themselves of the earth without drenching it with the blood of innocent persons.

The New York Sun building to be built will have 34 storeys. It will have two arches at the main entrance on Park row, on top of which will be granite and marble, and above this will rise a straw-colored structure of steel, which is as simple in design as the Washington monument. This will rise for twenty storeys, and then there will be a gallery in the style of the Italian Renaissance, with columns and pilasters. A structure reaching to a point will surmount the building, instead of a dome or tower.

The use of Dr. KOCH's lymph as a cure for tuberculosis, has been abandoned by the American hospitals. DUGAN, the man selected as the most promising subject for the cure of phthisis, who was sent to Berlin and received the most thorough care and consideration without the question of expense, is now dead. Even the cases of lepers (which disease from its externality was adjudged to be more susceptible of cure by the lymph) some of which were discharged as well, have not evinced permanency in their cure. It is unfortunate that the lymph has failed. Unquestionably, however, the doctors are on the right track. One of these days the true lymph will be discovered. If disease is caused by bacilli there seems to be no reason why these microscopic organisms may not be exterminated.

In spite of the great emigration from Germany, it is increasing in population faster than any other European country except Russia. The total population last December was 49,420,800, as against 46,885,704 in 1885, showing a gain of 2,565,096 in the five years, and the largest gain in any five years since the establishment of the empire. In 1871 the population was 41,085,792. In the next five years it increased 1,668,568. From 1875 to 1880 the gain was 2,506,701, but from 1880 to 1885 it decreased to 1,621,643—a period during which emigration to this country was very heavy. The bulk of the increase was in the cities. Ten per cent. of it was in Berlin, and more than one-half of it in the ten largest cities of the empire. As compared with other European countries, Germany in the last ten years has grown about 4,200,000, Austria less than 3,000,000, the British islands, it is estimated, about 3,600,000, Italy about 2,750,000, and France less than 1,000,000—probably much less. The empire of Russia shows a gain during the same period of nearly 15,000,000. This is explained in part by the relatively small emigration from Russia, and in part by the space for expansion permitted by its vast extent of thinly populated country. The rapid increase of population in Germany is evidence of industrial development and social prosperity, which makes it possible to sustain more people on the same territory.

Extensive Improvements.

Mr. Piper is making trees, rocks and earth move around Cadboro bay park, where he has a large body of men working on the extensive improvements that are being made. He is building a sixty foot road through the entire property down to Ten Mile Point. It is expected that the electric street car will be running over this road next summer. The road is immediately through the university site.

Tourist Spoons and Opera Glasses.

Mr. A. A. Clayton, of the Diamond place, Government street, has now completed and ready for inspection, a large stock of tourist spoons, suitable for souvenirs of Victoria. In the bowls of the spoons are etched scenes of the Gorge, Dunsmuir Castle, Mount Baker, and other pictures of Victoria scenery. He has also just received a consignment of beautiful opera glasses, in pearl and Russia leather, which are pronounced the finest ever imported to this city.

Washington W.C.T.U.

The ninth annual convention of the Women's Christian Temperance Union of Washington, was in session in Walla Walla last week. The following officers were elected: President, Mrs. Lucy A. Switzer, of Cheney; corresponding secretary, Mrs. Claudia A. Penn, of Spokane; recording secretary, Mrs. Jennie L. Green, of Medical Lake; assistant recording secretary, Miss Carrie Green, of Davenport; treasurer, Mrs. Lucy R. Berry, of Walla Walla.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system, gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

The Alba Heywood Concert Co.

The chief and shining figure in the Alba Heywood Concert Company, which played to a wonderfully slim house on Saturday, is Alba Heywood himself. He is a variety show, a concert and circus all in one; a good singer of a comic song, a splendid impersonator and full of genuine fun all through. The other members of the company are well up to the average; the only wonder being that Mr. Heywood doesn't draw better audiences with such talent at his command.

Police Court.

There were five cases on the docket at the police court this morning, three D. and D's. and two cases against Chinamen for running gambling houses on Fisguard street. The drunks paid the usual fine of $5, and the Chinese cases were remanded until Friday. As evidence against the Chinamen, Sergt. Walker had captured, and showed in court, all the paraphernalia connected with running a fan-tan gambling table, and a witness was there who explained for the edification of His Honor and others how the game was carried on.

Fire Alarm.

An arrangement has been made between the chief engineer and Mr. T. B. Hall, of the flour and rice mill, on Store street, to make quick time in case of a fire in the mill. The electrician of the fire department, T. Watson, is stringing an independent wire from the rice mill to the fire hall. Should a fire occur the watchman would pull a hook and a gong would strike in the fire hall and in a few minutes the firemen can reach the building, which is some distance from the regular alarm box, thereby saving valuable time.

Left in the Dark.

Something wrong with the electric light apparatus caused the lights in Christ Church Cathedral and the Methodist Church last evening to go right out. Fortunately there was sufficient daylight to admit of the services being continued. An attempt to light the discarded gas proved ineffectual. At the Cathedral, too, was another unpleasant experience, a drunken man having found his way into church and made himself a nuisance as well as annoyance to the assembled worshippers.

A Sorrowful Scene.

A poor unfortunate married woman, while under the influence of liquor, created a disturbance on Blanchard street, near the corner of Rae, about 10 o'clock Sunday night. Her screaming attracted a large number of the residents of the locality, and the police being sent for and a cab procured she was taken to the lock-up. As this is the first offence, and possibly the last, the name is not published. A fine of $5 was imposed this morning. Wonder if the fellow who gave the poor woman the whisky, and then permitted her to go home alone, only to stagger and fall on the streets, will pay the fine?

Brought Home.

Nearly a week ago little Willie Ramus suddenly disappeared from home, and his parents, not being able to find him, notified the police. Nothing, however, was heard of the little fellow until last evening, when an Indian told Officer Smith that a little white boy was living with some Indians near Porter's wharf. It seems Willie ran away from home, and meeting the Indians told them his father and mother were dead, and that he had no place to live, and they, pitying the little fellow, took him in, and for the last five days he has been living with the Indians. Officer Smith went down to the wharf last evening, immediately recognized the boy, and took him home to his parents.

Cheap Excursion to Mission.

Arrangements have been made with the C. P. N. Co. and the Canadian Pacific Railway to carry Victorians to Mission City and return at the low cost of $5 for the round trip. Passengers will leave by the ss. Islander on the morning of the 19th inst., and a special train will convey them from Vancouver to the important town located at the intersection of the S. L. S. & E. Railway and the C. P. R. Tickets will be good for return on the following day, and may be obtained at the offices of the Canadian Pacific Railway or the C. P. N. Co. For particulars apply to HEISTERMAN & Co., Sole Agents, Victoria.

Many Moving.

Mr. George Byrnes' auction sale of the Taylor estate property was a good one this morning. Bidding was fairly brisk, and prices went well. Lot 156 Pandora street went for $3350 to Mr. James Boyd; subdivision 5 of five-acre block two, Chatham street, to J. Dwyer for $3350; subdivision 5 of five-acre block 2 (Chatham street) $1650, to S. M. Buckney; subdivision 3 of five-acre block 15 (40 x 120), $2000 to Fell & Moss; subdivision lots 5 and 6, corner of Quadra and Chatham streets, at $1650, to James Boyd; subdivision lots 14 and 15, block 2, Marion street, at $825, to J. Boyd; lot 64 Esquimalt town, $800, to A. J. Salmon; lot 30, corner Chambers and Caledonia avenue, $950, to H. Noble.

What They Would if They Could.

Only those (few) who read the so-called B.C. Commerce and Maritime Register will understand the spirit of the following: The only paper in Canada so far heard from that has undertaken to defend the action of United States Counsel J. Ewing, in refusing to toast the Queen at the recent Board of Trade banquet, is the Commercial, published in Victoria, and which without any hesitation styles itself the "British Columbia" organ of trade. Just here it may be said that neither Victoria nor the Island constitute British Columbia, and while we can readily admit that the large towns of the Island are certainly an important adjunct of the Province, it is as well to have it understood at once that British Columbia without the mainland would be like a strong healthy man with all parts of his body cut off except one hand. It would be rather a sorry Province.

Sound Boat Rate Cutting.

It is currently reported at Tacoma that the Union Pacific boats, by order of W. H. Hurlburt, assistant general passenger agent, refused to comply with the requirements of the Puget Sound Steamboat Association, made some time ago, to go into effect on the 1st inst., raising the rate between Olympia and Tacoma to $1.25 and the round trip to $2.25, and that between Olympia and Seattle to $2 for the single and to $3.75 for the round trip. The other lines have been compelled to follow the Union Pacific, and the old rate is being charged. Agent Ellis of the Union Pacific admitted that the old rates were again in force. He added that it did not mean that an order of the association would not be recognized, but in this case it had been overruled by steamboat lines acting individually.

Was in the "Shakeup"

His Lordship Bishop Lemmens has returned from Chemainus—whether he drove in company with Mr. MaAculay, vice-president of the Chemainus Mill Company. A liberal portion of land was allotted for the purpose of erecting a mission church for Rev. Father Vannevel. Mr. MacAulay drove home, while the Bishop took passage in the train which got wrecked. He happened to have been in the coach which was upset and had a remarkably narrow escape with only a few bruises, which render him somewhat sore and stiff now. The car fell over a bank ten or twelve feet high onto the ground below, which fortunately was free from stumps. Mr. MacAulay had an accident to his carriage on the return trip owing to the loggers at Shawnigan Lake putting their skids across the main road. It is not pleasant or safe riding over them.

Dissatisfied Indians.

Some of the Indians who belong to reservations a short distance up the coast have become dissatisfied for some time back for several reasons. In the matter of hand logging they think that some of the white men are encroaching upon their rights, and are jealous of a stick of timber being taken from any woods in which they are working. On a reservation on Jervis Inlet there is a slate quarry which has been worked for some time. Recently the Indians have begun to think that the quarry is of use to them and object to the white men doing any more work. They became very excited and it is believed were quietly forming plans for violence, but more peaceful counsels prevailed and they have sent letters to the Indian Department at Ottawa, laying the case before the authorities and demanding the full possession of their rights. It is expected that the matter will be amicably settled.

Matsqui and Chilliwack Valleys.

Mission City is the natural outlet for the Matsqui and Chilliwack valleys. The agricultural and other resources of this region are simply astounding. There are inexhaustible quantities of the finest timber. Coal has recently been discovered. It is an immense agricultural country, whose fertility cannot be equalled; an aggregation of wealth sufficient to support thousands of people. Look at the map; study the situation intelligently, and you will cast your lot at Mission City.

The coal mines recently discovered in the vicinity of the townsite only await capital for development. Cheap fuel means industrial manufacturing concerns to be established at this promising new town.

The Water Works' Arbitration.

Difficulties have rather soon commenced in connection with the Vancouver Water Works' arbitration. Mr. Browning, the arbitrator for the city, had a conference with Mr Tilton, the arbitrator for the Water Works' Co., with reference to the appointment of a third arbitrator. Mr. Browning submitted the names of Messrs. Sandford Fleming, Shanley and Judge Clarke, all of Ontario. These gentlemen were not acceptable to Mr. Tilton, he being desirous of having Judge Drake, of Victoria, appointed to that position. When the time for the appointment of the third arbitrator expired both parties applied to the courts as prescribed by the act to make the appointment, Mr. Browning to Judge McCreight and Mr. Tilton to Mr. Crease. Judge McCreight has declined to take the action called for and the matter of the appointment, therefore, will come before the court here.

Celebration Notes.

Commander Turner, of H. M. S. Nymphe, met the Mayor and Hon. J. H. Turner this afternoon and held a conference with regard to the arrangements for the regatta, in which the crew of the trim little Nymphe intend participating. There is no doubt but that they will this year maintain the reputation of the navy in the Queen's birthday regatta.

The posters from the press of Mr. Cohen have been issued, and through the courtesy of the several railway officials will be distributed to outside points.

This will probably be the grandest celebration for many years. Enquiries have been received from all points on the Mainland and the Sound, as well as various inland cities in Washington and Oregon asking as to the nature of the celebration. These are not confined to clubs and public bodies, but from many private individuals. They have been duly answered.

The Abbie Carrington Grand Opera.

Madam Abbie Carrington and her famous company of artists will appear at the Victoria Theatre on Thursday and Friday of this week. On Thursday, May 14th, the company will appear in Buffa's beautiful "Rose of Castile" and on Friday they will present Flow's famous and ever popular "Martha." Madam Abbie Carrington is considered to be one of the very greatest singers of the present day. She has been leading prima dona with the "Stakosch Italian Opera Company," the original "C. D. Hess English Opera Company," the "Mapleson Italian Opera Company" and many other famous organizations. In the Skakosch Company she was the alternating star with Madam Etelka Gerster.

Madam Carrington has as her support the great English tenore robusto G. W. Traverner, Madam Minevra Babcock, contralto, Christian F. Martens, and Sig. H. Bolini, baritones, Herr Eugene Kaueffer and Ivan Petson bassos, Edwin M. Shonert, the musical director. The appearance of the Carrington Company will close the musical season at the Victoria Theatre.

Mission City, B. C.

The Canadian Pacific Railway from Montreal to Mission City; the Seattle, Lake Shore & Eastern Railway from San Francisco, Portland, Tacoma and Seattle to Mission City; the Mission City & Chilliwhack Railway from Mission City to Sumas and Chilliwhack east (projected); the Canadian Pacific Railway, from Vancouver to Mission City; the Bellingham Bay & British Columbia Railway from Whatcom, connecting with the Seattle, Lake Shore & Eastern Railway for Mission City; the Great Northern Railway, from Ferndale, connecting with the Seattle, Lake Shore & Eastern Railway, for Mission City. Three lines of steamers daily, connecting with Victoria, Vancouver and New Westminster, Puget Sound, Oregon and California ports. Passenger and freight trains arrive daily at Mission City over the Canadian Pacific Railway and the Seattle, Lake Shore and Eastern, giving direct railway connections with all parts of the continent.

The depth of the water in the Fraser River at the townsite permits of the largest vessels entering the port, thus affording it an outlet in every direction by river and steamship lines. For particulars, maps, etc, call on Heisterman & Co., sole agents.

New Town on the Fraser.

Already there are located in the new town—Mission City—a number of business houses, all doing a thriving and increasing trade. Some of the streets and avenues are being planked and sidewalks laid. Fine business blocks are in course of construction and a number of residences are already erected and contracts have been let for more to be started at once. A large and commodious hotel, to cost $10,000, has been commenced and will be pushed to completion without delay, the present hotel facilities being quite insufficient to accommodate all the business. The city can boast of hardware, grocery and general stores, blacksmith and butcher shops, real estate and loan offices, lumber yards, bank, planing mills, post-office and telegraph office, a first-class wharf nearly one block long with warehouses erected thereon, affording the best landing on the Fraser River, two schools, churches, etc. Here is located the large Indian school for both sexes, under the direction of St. Mary's Mission. A large union depot is to be erected at the intersection of the railroads, which will be commenced by the railway company at an early date.

BUILDING A LIBRARY.

No Royal Road to One Which Will Be of Real Service.

As there is no royal road to learning, so there is no royal road to that outward and visible sign of it which consists in shelves well filled with books, says a writer in Kate Field's Washington. The man who wants a library can not get it ready made. He may, it is true, buy a collection of books fairly well fitted to the average mind, but it will be about as satisfactory as the ready-made coat fitted to the average body. It will fail to meet his individual eccentricities.

Nor can the ideal library be gathered in a hurry. Nothing is more helpful to the tone and quality of a library than such a moderate degree of poverty as will limit purchases at first to the absolutely essential. In the buying of books, as in the buying of pictures, real discrimination comes only through actual experience, and it is very unfortunate to have too many bought at a low grade of development; but, on the other hand, no man should wait to begin his library until his taste is fully formed, or it will lack many books which he would gladly have there, but which would not run the gauntlet of his mature judgment.

A very common error in buying books is to start with cheap editions under the erroneous impression that later on they may be replaced by good ones. Unfortunately, the mind of the book lover will not assent to this plan, however strong his will. The book he takes up to read is invariably the old and shabby one, and the other becomes only a splendid bit of decoration, to please the eye of the visitor. Your pet literature always tastes best from the page on which you originally read it; so, when you buy a book of which you are likely to become fond, it should be in a good enough form to keep. At least, paper and print should be respectable that a new binding will be all the change necessary. With the habitual student the sense of location is very highly developed. In his own library he finds things by their position on the page, and can turn at once to any given passage in a familiar author. But put him in a room full of strange editions, and this laboriously acquired sixth sense becomes utterly useless.

The taste for fine bindings is a liking apart from the love of books for what they contain, but it is by no means an ignoble tendency, and adds vastly to the æsthetic effect of a well-chosen library. The housing and care of books, too, is a subject not beneath the notice of even the profoundest student.

INEXPENSIVE BENEVOLENCE.

The Method a Wise Man Used with Circulators of Subscription Papers.

I was in the office of a Chicago real-estate and loan agent the other day, says a writer in the New York Sun, and had scarcely got seated when a woman was admitted, and asked him for a subscription to some charity.

"With the greatest of pleasure, ma'am," he replied, and producing a check-book he filled out a check for $10. She thanked him very sweetly as she withdrew, and it was only five minutes after when a man entered and asked for a contribution to some poor children's fund.

"Certainly—only too glad," replied the agent, and he wrote out another check for $10.

After we had been interrupted four times, and he had cheerfully written four checks I said to him:

"You certainly deserve the title of a philanthropist."

"Well, perhaps."

"But I notice that you ask no questions and take every thing for granted. Have you no fear of being swindled?"

"None whatever."

"Well, the people of Chicago must be an honest crowd."

"Oh, it isn't that, my dear sir. Let me—"

Here a lady entered and asked for a contribution to assist in giving a free excursion to a Sunday-school, and he wrote out a check for $15 and waved her out, and continued:

"Let me explain. All those checks are worthless, as they are drawn on a bank where I have no funds. I do it to save time. All these callers come prepared to argue and explain and contend, and each one of them would sit for half an hour. By giving these checks I secure a great reputation around the block as a philanthropist and a well-heeled man, and it costs me nothing. When—"

Here he paused to fill out a check for $20 for the establishment of a sailors' bethel, and then finished:

"When the checks are presented they are found to be worthless, and those holding them either get mad or see the joke. In either case they never return, nor do they give me away. Try it, my boy. Saves time, money and gab; and it won't be a month before you'll be satisfied that you are doing charity a better service than if you were handing out the cold cash."

Some of Both.

Medical scientists can not agree as to whether the man who commits suicide is insane or idiotic, says the Detroit Free Press, and there is a prospect of reaching a verdict which will end with "some of both." It is a fact that out of every fifty suicides only two or three can be accounted for by any reasonable excuses on the part of the living.

A Tough Squaw.

At the San Carlos agency an Apache bet a bottle of whisky that his wife could carry two hundred pounds of flour half a mile without resting. She was a light, slim woman, but she added fifteen pounds to the load and ten rods to the distance and won the whisky for her liege lord. It unnecessary to say that she got none of it.

Evaporation of the Nile.

A peculiar feature of the river Nile is that from its junction with the Atbora, for a distance of more than 1,500 miles to the sea, there are no affluents. This fact, together with the burning sand and the hot sun of the desert, causes the most of the stream to evaporate, leaving but a small body of water to flow into the sea.

AT THE FISH CANNERIES.

A Description of the Wheels with Which the Fish Are Caught.

When on the Columbia river last summer, writes a correspondent of the Chicago Inter Ocean, I saw those wonderful "fish wheels," by which the fine salmon of that magnificent river are taken. One which I examined particularly while in operation, was thirty-six feet in diameter, with the other measurements in proportion. It was permanently placed in its settings near the shore, with a sort of fence running from it and widening out into the stream below, so as to compel the fish from quite a width of the river to come that way. The current, of course, turns the wheel, which is so seived with wire that when the mighty paddles go down any thing of size that comes that way is at once lifted out of the water.

Now the salmon is no "happy-go-easy" fish. It will not float with the current, but, instead, ever goes against it, sometimes, too, at the rate of twenty miles an hour. So, drawn in by this fence inclosure, battling with a five or six-mile current they rush into the wire cages of this revolving wheel and are lifted out of the water. This wheel is so arranged with troughs on a slant between the paddles that the fish are dropped into a large tank, through the apertures of which the water runs freely. And this tank is so fixed with pulleys that whenever desired it can be lifted above the river, and the water immediately running out the fish are readily killed and then taken in boat loads to the canning factory.

There are several of these wheels to each factory. And looking into one of these factories I saw a large room, possibly forty feet square, covered a foot or two deep with fish, waiting patiently to be put through the necessary processes and get safely housed in cans.

With one of these wheels, so I was told by a boss fisherman, they took out last spring, in twenty-four hours, 102,000 pounds. When I was there the best of the season was passed, but even then they were doing a lively business. One salmon then taken would measure about four feet in length, but the most of them that were being flopped over would weigh from five to twenty pounds. The smaller ones they do not desire, and so the sieves on the wheel are made sufficiently coarse to let them through, and they fell back into the current to be picked up again some future day when grown to respectable and paying size.

There were pointed out to me several varieties of the salmon, some of which, for instance the "dog" and "white," are either discarded altogether, or traded off for trinkets to the Indians. But, when not being watched, the temptation must be considerable to make good market of them all. The "blue-black" and the dark and spotted varieties have the finest grain and flavor, and so are the most prized. But many a salmon that is eaten and relished in Chicago would not be served in Portland. But since all can not live in Oregon, it is well that with this dish people are not over dainty, for "when ignorance is bliss, 'tis folly to be wise."

3rd dam ....., by Emancipation, jr., By imp. Emancipation.

NOTE—MIDGARD is a high-headed, well-finished stallion, possessing extra length and substance, with capital legs and feet; 15¾ hands high, and carries himself with much style. His disposition is perfect, and few stallions possess his fine road qualities. His breeding speaks for itself, being by a well bred sire with a record below 2:20, and out of a mare by old Hambletonian (sire of the dams of 63 performers with records from 2:12¼ to 2:30), and she out of a Star mare. The chief bloodlines of this stallion spring from the Hambletonian, Mambrino Chief, Edwin Forrest, and American Star families (strong producing sources), and are backed up with thoroughbred strains. Midgard is an exceptionally good individual, and is very richly bred.

AUCTION SALES.

VIEWFIELD

J. P. DAVIES & CO.

AUCTIONEERS

Have received instructions from the PUGET'S SOUND AGRICULTURAL COMPANY to sell by

PUBLIC AUCTION

—ON—

Thursday, May 14th,

AT 12 O'CLOCK NOON,

At their Salesrooms, Wharf street, a number of plots of land located at

VIEWFIELD

the Puget's Sound Agricultural Company's Land at MACAULEY POINT, the finest and best situation for residences adjacent to VICTORIA, the rapidly growing Queen City of the Pacific, and undoubtedly the most desirable place in which to live on the Coast.

VIEWFIELD forms the Western Shoreline of Victoria Harbor, commencing at the Southern boundary of C Battery Barracks, and extends along the entire water front to the South and West of Section No. 24. It contains in all about 200 acres suitably subdivided into plots of land of about an acre, more or less. The shoreline itself is of the most charming description, being a succession of indentations, bays, and points intersected with smooth, sandy beaches, affording facilities for bathing, fishing, boating and the various other pleasures of the Sea Shore to an extent seldom met with.

VIEWFIELD bears favorable comparison with BEACON HILL, the pride and joy of every Victorian. The soil is similar, and there are the same stretches of lawn-like pasture land, with occasional clumps of trees so enchanting to residents and visitors.

VIEWFIELD, however, surpasses Beacon Hill in its views of the STRAITS OF FUCA, UP SOUND, and the lovely SNOW-CLAD OLYMPIC MOUNTAINS. It moreover, possesses an additional charm in that a truly grand view of the City of Victoria is obtained.

VIEWFIELD has been laid out in convenient subdivisions; is traversed by well made roads 60 feet wide, drained by ditches on either side; and is but a short distance from Victoria City boundary.

VIEWFIELD has easy communication with Victoria by means of the National Electric Tramway Company's cars, which pass the approach to the property from the Esquimalt Road.

VIEWFIELD is not subject to the prevailing western winds, Albert Head acting as a wind-break; and is confidently expected to become one of the most fashionable residential localities.

VIEWFIELD has the advantage of the Esquimalt Water Works system from which it can be supplied with the best and purest water on the coast, under good pressure.

BUILDINGS—To induce the building of good residences the Company offer a bonus of 20% of the sale price of each lot to the first ten purchasers who shall within 12 months erect houses costing not less than $4000 each. Plans to be approved by their agent in Victoria, Mr. Thomas R. Smith.

The proposed extension of the Northern Pacific Railway to Victoria cannot fail to greatly increase the value of this property.

The following subdivisions have been selected, and will comprise the sale of the 14th of May, namely—

BLOCK V—Nos. 14, 15 and 16.
BLOCK XI—Nos. 3, 4, 8, 9 and 30.
BLOCK XII—Nos. 8, 11 and 14.
BLOCK XV—Nos. 9, 11 and 13.
BLOCK XVI—Nos. 3, 5, 7 and 9.
BLOCK XVII—Nos. 1, 3, 10 and 12.
BLOCK XVIII—Nos. 1, 5, 7 and 8.
BLOCK XIX—Nos. 4, 6, 11 and 13.
BLOCK XX—Nos. 1, 3, 4 and 5.
BLOCK XXI—Nos. 1, 3 and 6.
BLOCK XXII—Nos. 7, 10 and 12,

Notices have been placed on each lot in order that the public may readily see which are to be offered at auction.

Full particulars of sale will accompany the lithographed maps, which will be ready for delivery on Saturday morning, 9th May.

The terms for payment are ⅓ cash; ⅓ in one year; and the balance in two years; interest on deferred payments at the rate of 7 per cent. per annum. Deeds at purchaser's expense.

A GRAND SPRING MEETING

THE VICTORIA HORSES CAPTURE EVERYTHING.

Square Racing, a Fair Field and No Favor The Rule—Polly Takes the Queen's Plate This Year—Chambers' Maude C.'s Level Trotting.

Saturday's races closed the spring meeting of the Victoria Jockey Club. It was a glorious day, from an atmospheric and sporting point of view. There was an immense attendance, betting was brisk enough to keep up a good pitch of excitement, the public was in good humor (except when there was any length of time to wait) and all things considered the day was a good one.

TROTTING AND PACING.

Free for all—Purse $300. Starters, Maud C, Belle Watts and Governor.

Governor wouldn't go. He hopped peculiarly for nearly half an hour before he would start, and the grand stand began to murmur about jockeying. Somehow Governor squared up on a threat from the judges' stand and made a splendid start, Maud C. at once settling down into a trot from which she never once broke. In fact she was the most honest trotter at the meeting. At the quarter round, both Belle and Governor broke, Belle, however, dropped into a gliding motion and was immersed in an endeavor to shut out daylight between herself and the bay. She didn't spurt—she gradually drew up, but as soon as Maude felt her near, the great strides of the bay were materially lengthened, and the gap was made bigger. Governor only competed with Belle when the latter broke. Maud finished in 2.37½.

Of course Maud's splendid work is due not a little to driver Harry Stone, a man with a firm hand, a cool head and magnificent judgment. In fact he made her the entire meeting almost, and so managed her that even now it is impossible to guess the mare's actual class.

She took the second heat in a walk, lowering the time, thanks to the improved condition of the track to 2.33½. And in the third heat came home, without having lifted a foot to gallop in any heat, in 2.38½.

RUNNING MILE AND REPEAT.

Owing to the heavy lameness of Cyclone, the horse Rifton made the course alone for the purse.

POLO PONY RACE.—½-MILE DASH.

Starters: Old Plug, Robert the Devil, Moral Reform, Barney and Buckety. Moral Reform did not create a good impression, and he did not cause a sensation in the race; but Barney and his plucky rider, little Jimmy Burns, did, who won in a false start, and won easily again when the horses finally got off.

THE SEASON'S RACE.

The Queens Plate, the great race of the season, was the one most anxiously looked forward to by both sports and non-sports. Betting was heavy on Brady, a gray horse. In fact the air was so full of "sure tips" on Brady that many who were betting on T. Elford's pretty, natty little Polly, tried to counterbalance what they expected to be losses by backing Brady heavily. Gertie was for a time second favorite, but it was rumored round that she was sick, and she fell to third place. When the horses got on the track the betting barometer, the pools, was discarded, and Polly became prime favorite in private circles. Brady seemed stiff in the fore, and loose in the hind quarters, but he could cover ground in grand style. He has a tremendous reach, is cool and square in starting, and his big square boned frame gave him considerable advantage in a long run. Polly has a peculiar bound which tells in a spurt, and backed by fair wind she can keep it up for some time. She drew out at the first quarter with Gertie, who soon dropped to give second place to Brady. Polly passed the half closely pushed by Brady and came up the home stretch and under the wire almost level. She took the lead on the quarter of the second round without any punishment, while Brady's rider plied the whip freely. He gained a little advantage, but the little mare crawled from under his big nose when he got near, and came in at the mile by about a length. She increased the distance on the last round, and on the down stretch of the half answered a little of the whip by a few bounds which let daylight in again between herself and Brady. Brady settled down to make the best of a loss, and came in close on the shoulders of the plucky little mare. Time, 2.08¾.

Cheers went up for her and her rider, which were thoroughly deserved, and the spring meeting of 1891 of the V.J.C. closed, a credit to the club and the city.

Big Frank Moscow, who created such a sensation at the Park Friday with Rod Tolmie behind, is a mare. She was bred to W. J. Taylor's Christmas this season, and will no doubt produce a fast colt or filly.

SATURDAY'S SPORTS.

Saturday's sports on the Hill were better than usual. There was a good practice game of cricket, from which no doubt will result next Saturday a match between the V.C.C. and a team from H.M.S. Pheasant. There was lacrosse practice for the forthcoming schedule game.

The chief interest, however, centered in the baseball game which was watched by the largest crowd. Manager Baker will be able to pick out a good team to meet the Townsends in their coming match. The playing of Burnell, Meadie, Robinson and Barton show that they know the game thoroughly and are a valuable acquisition to the teams they play with. The following is the score:

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mfg. Co., and since then

HAVE NOT LOST A SINGLE DAY

on account of sickness. I believe the disease is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEHR, 9 N. Railroad St., Kendallville, Ind.

COAL

The New Vancouver Coal Mining & Land Co., L'd.

(FORMERLY THE VANCOUVER COAL CO.),

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL (Used principally for Gas and Domestic Purposes).

THE SOUTH FIELD COAL (Steam Fuel).

THE NEW WELLINGTON COAL

(House and Steam Coal) are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating Power, unequalled by any other Bituminous Gas Coal the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

THE ABOVE WORK IS THE OUTCOME of the recent Moral Reform Movement which took place in the Capital City of British Columbia, and which played such an prominent part in the late Municipal Elections held there. The author discusses the various phases of the question, and has endeavored to deal with the subject in a manner that will be interesting and some practical benefit to every reader into whose hands his book may fall. The position taken by the Ministers of the Christian Churches in regard to the Municipal Election above referred to is also fully dealt with, and although the criticisms may seem severe to some, the author hopes the conclusions drawn and the desire he has shown to do a service, no matter how slight it may be, to the weak and fallen, will meet with the approval of all lovers of justice and humanity.
